PRICE:	USD 190,000

General Description

After 15 years of experience of composite construction building Carbon Fiber racing boats this vessel was designed and built as a day charter boat or family cruiser.

Tangaroa was built of a combination of carbon fiber, Kevlar and fiber glass with vacuum infusion process. Tangaroa has a stepped hull and was designed for multi-platform operations including Surfing, Diving, Fishing, Wakeboarding and entertaining.

Tangaroa is fully equipped with "push button" technology, from Gas BBQ to Hydraulic table, electric toilet and electric anchor winch, Tangaroa is a dream to operate. With many years of experience building and maintaining boats in Indonesia the builder specifically chose parts that are easily accessible for maintenance.

Boat Specifications
